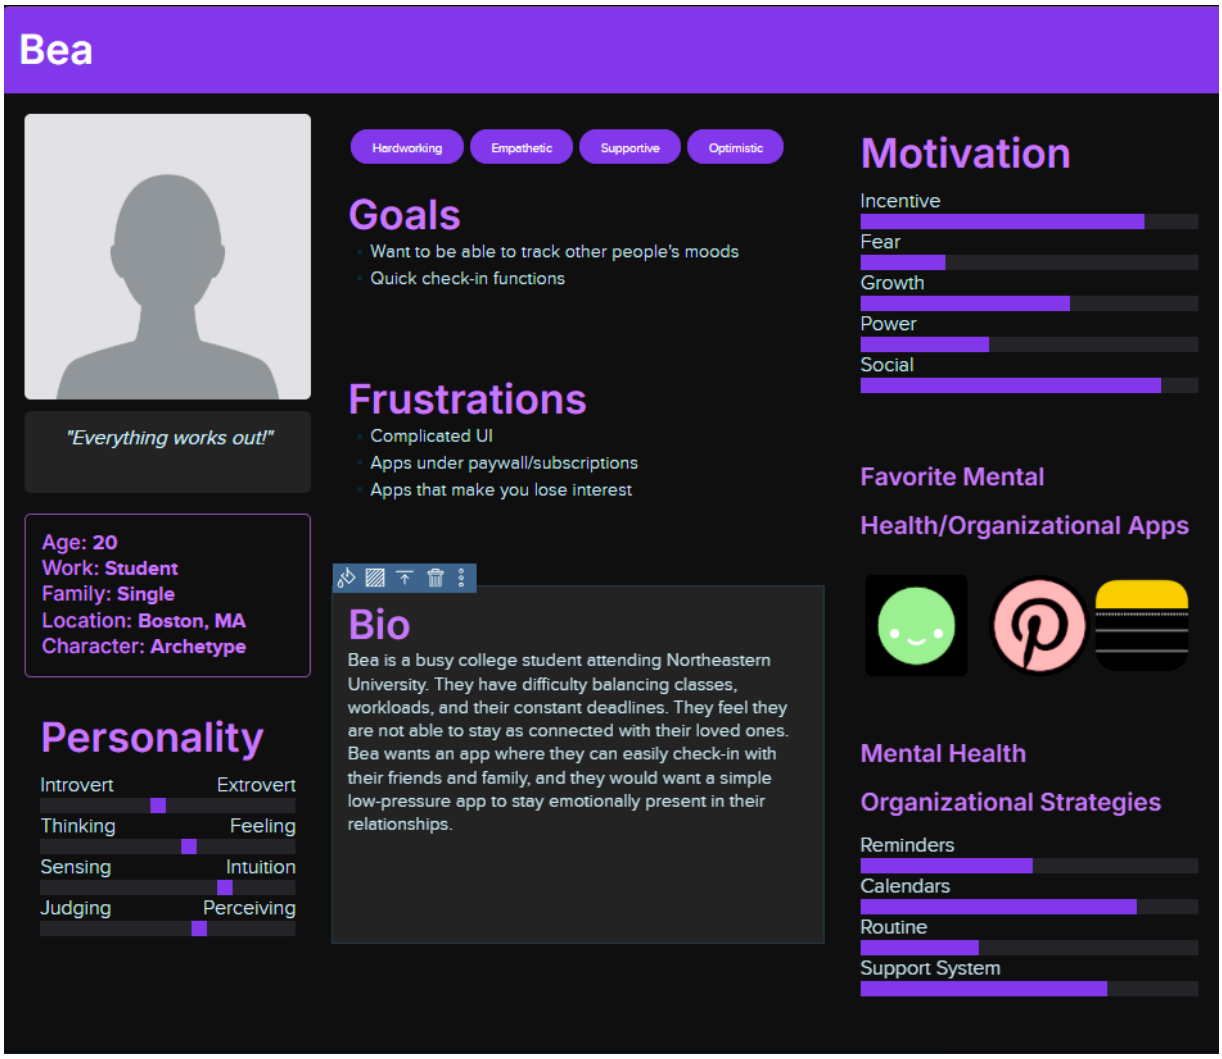
1. User Analysis:

User Classes:

1. Someone busy but still want to connect with their friends/family
2. Someone who is forgetful/unmotivated due to their mental health issues
3. Someone who hasn't used apps like this and is interested in starting

Personas:

1. Someone busy but still want to connect with their friends/family



2. Someone who is forgetful/unmotivated due to their mental health issues

Aurora

"Somehow, it'll work out!"

Age: 19
Work: Student
Family: Single
Location: Boston, MA
Character: Archetype

Personality

Introvert	Extrovert
Thinking	Feeling
Sensing	Intuition
Judging	Perceiving

Talkative | Upbeat | Anxious | Supportive

Goals

- Get reminders from friends (drink water, take meds)
- Send encouraging messages (hugs, kisses, hope you are doing well
- Check up on friends

Frustrations

- Getting too many notifications (make people want to ignore the app)
- Needs something that makes it easy to remind people
- Stuff that is overcomplicated to use

Bio

Aurora is a college student who easily gets overwhelmed balancing work, school, and her mental health. Her busy schedule makes it a struggle to remember to stay hydrated, take her vitamins, and make deadlines. Aurora wants an app that will allow her friends and partner to support and motivate her throughout the day. She appreciates being able to send small messages that remind her friends that she cares about them, even if she doesn't have much time for conversation.

3. Someone who hasn't used apps like this and is interested in starting

Persona B

"I've never used an app like this but it does seem interesting"

Age: **21**
Work: **Student**
Family: **In a relationship**
Location: **Boston, MA**
Character: **Archetype**

Personality

Introvert — Extrovert
Thinking — Feeling
Sensing — Intuition
Judging — Perceiving

Caring | Anxious | Supportive | Social

Goals

- A shared diary function for people to say how they're doing and write on it.
- Reminders to text people back or to remember to check up on somebody

Frustrations

- Privacy settings to set who can see your diary, or how you're doing so you're not telling the whole world
- For the app to not turn into another kind of social media where it will contribute to unhealthy online behavior.
- There are other apps that do the same thing (calender and to-do)

Bio

Persona B, is a student who is going to graduate soon and is worried about their future. They usually dont use apps to help manage their tasks or for mental health, besides note-taking apps and to-do lists. They would consider using the app for checking up on friends, as they know people who do struggle with their mental health. They can be a busy person and would like something that is quick and easy to check up on others.
